

KIRIGAMI MODEL OF **MOSES MABHIDA STADIUM** IN DURBAN, SOUTH AFRICA

How to assemble:

1. Print this pattern on card stock, recommended weight is 250-300 gsm, caliper 0,32-0,38 mm.

DO NOT SCALE OR CENTER THE PATTERN!

You can also mirror the pattern and print on the back side of the sheet.

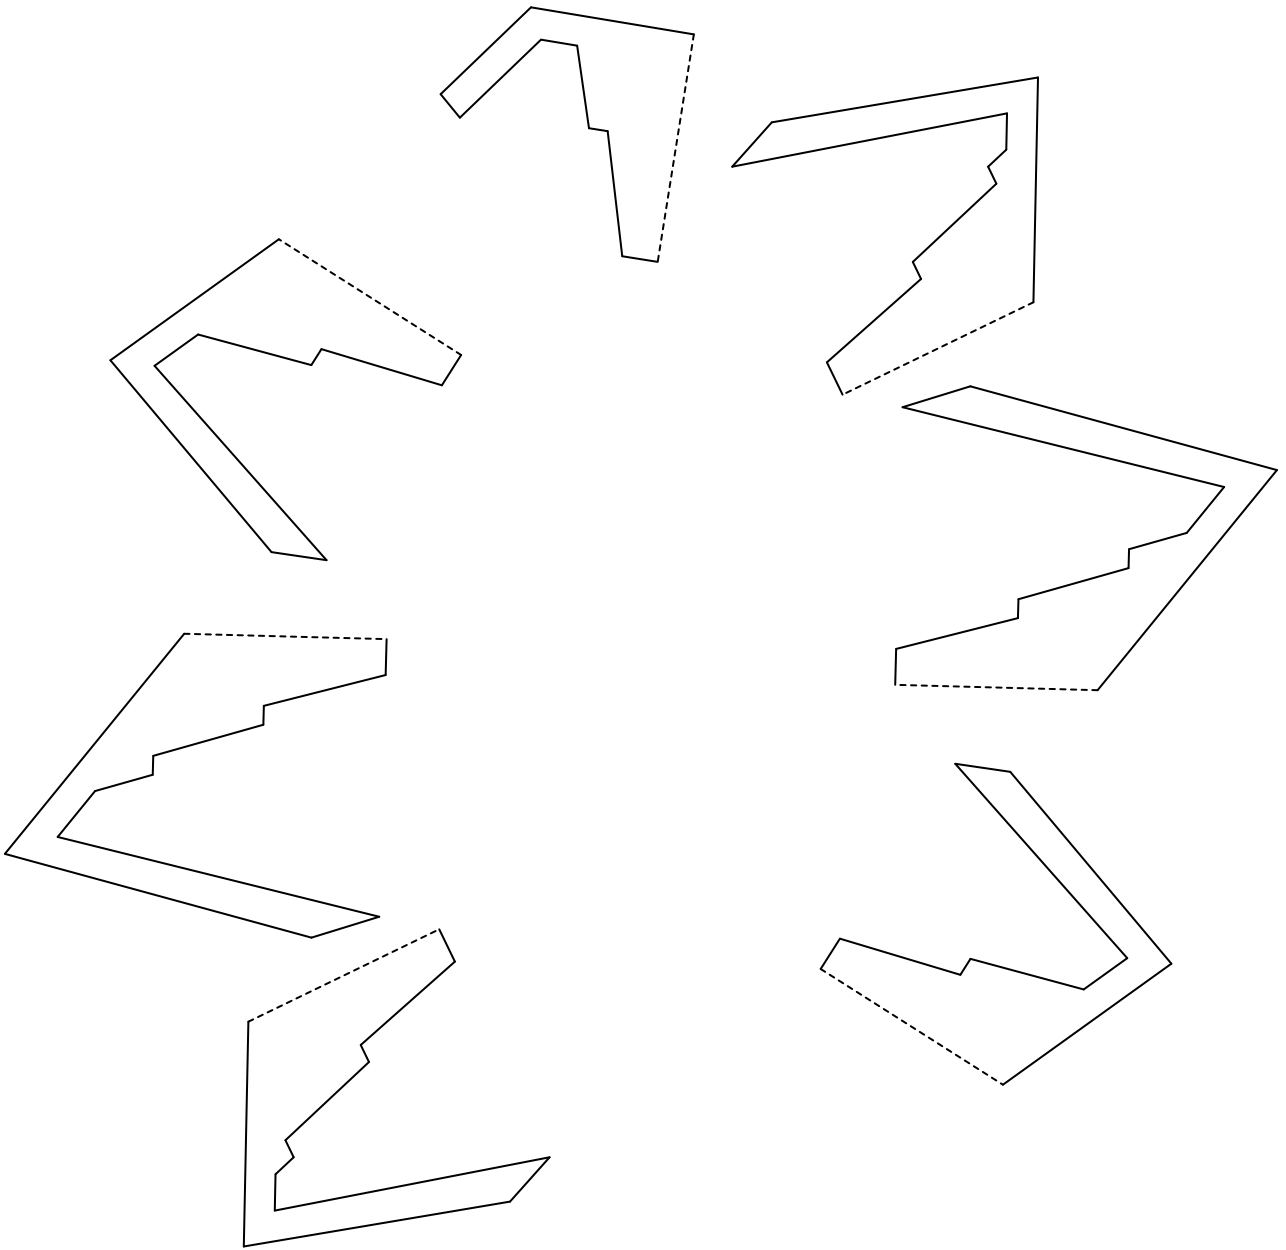

2. Cut along the continuous lines.

3. Score with an empty ballpoint pen along the interrupted lines.

4. Fold the parts upwards. Prepare so all the sheets.

5. Place sheet #2 over sheet #1 and carefully insert the parts from the lower sheet into the openings of the upper sheet. Do so for the rest of the sheets. Gentle bending is allowed for easier insertion process, especially for the most upper sheet #14.

6. Enjoy the model!
